CEI Talks Water at NEWWA 2012 Annual Conference

During September 23-26, 2012, CEI participated in the New England Water Works Association (NEWWA) 2012 Annual Conference. As a member of NEWWA, CEI was well represented at this annual event held in Brewster, Massachusetts with staff presenting and moderating various sessions.

CEI Project Manager and NEWWA Chair of the Program Committee, Kristen Berger, P.E., alongside the Dennis Water District, presented Drought Management Planning...for the Cape? This presentation described the approach taken by the Dennis Water District in developing their proactive Drought Management Plan to meet the revised Water Management Act permit requirements for the Cape Cod basin.

CEI President and Water Resources Specialist, Eileen Pannetier presented *Water Offset Feasibility and SWMI - What Does it All Mean?* This Roundtable discussion focused on offset feasibility and the status of the Sustainable Water Management Initiative (SWMI).

For more information on CEI's water resources engineering services please contact Kristen Berger, P.E. at 508.281.5160 x399 kberger@ceiengineers.com or Eileen Pannetier x301 epannetier@ceiengineers.com. Additional information is available online at www.ceiengineers.com.
