

CEI NEWS

Stormwater MS4 Compliance

New Stormwater MS4 Requirements Are Coming

On January 27th CEI Principal Engineer, Rebecca Balke, P.E. presented at the New England Water Environment Association's (NEWEA) Annual Conference and Exhibit held in Boston, MA. During the Regulatory Challenges Technical Session, Rebecca presented '*Change is Coming – Understanding the Proposed New Requirements of the NPDES MS4 General Permit*'.

The U.S. Environmental Protection Agency's proposed draft small Municipal Separate Storm Sewer System (MS4) permit for New Hampshire is loaded with new requirements that regulated MS4s must implement to comply. This presentation focused on the new requirements, how they may impact New Hampshire and Massachusetts MS4s, proposed timeframes for achieving compliance relative to a permit issue date and options for a more effective and efficient way to comply with MS4 requirements.

For more information on what is expected in the upcoming MS4 General Permit or for a copy of Rebecca's presentation, please contact her directly at 800.725.2550 ext. 308 or email her at rbalke@ceiengineers.com
