## **CEI Adds NH Army National Guard to List of DOD Clientele**

CEI is proud to have recently been selected to provide engineering and environmental services to the New Hampshire Army National Guard. CEI was selected out of a large field of firms to provide environmental services to include environmental planning and facility compliance, hazardous waste remediation and audits, air modeling, environmental assessment and training. CEI has provided similar services to a number of other DOD agencies including the MA Army National Guard at various facilities and armories throughout the state.
