## **CEI Opens New Office in New Britain, Connecticut**

With several substantial engineering projects now ongoing in Connecticut, CEI has recently opened a new office situated in New Britain, CT. Although the downturn in the economy has affected many businesses, CEI has worked hard over the past several years to diversify services and hire staff with the ability to provide a myriad of services. With a variety of service sectors and clients in both Federal, state, local and private industries, CEI has managed to hire and grow during a time of economic difficulty. CEI's recent addition of the CT Office represents the firm's commitment to fully serve the Northeast U.S. and specifically the New England area. CEI has other offices in Marlborough, Massachusetts and Merrimack, New Hampshire.

CEI's Connecticut office is managed by Professional Engineer and Regional Program Manager Mr. Sebastian Amenta, P.E. With over 30 years of varied engineering consulting experience, Mr. Amenta's expertise includes services relative to design/build and provided program manager services for both private and public clients. Mr. Amenta can be contacted directly at (860) 620-3673 or at [samenta@ceiengineers.com](mailto:samenta@ceiengineers.com).
