

## MassDOT Gives CEI Nod With New Services

Comprehensive Environmental Inc. (CEI) is pleased to announce that as of June 2011 our prequalification with the Massachusetts Department of Transportation (MassDOT) now includes **Basic Roadway Design and Hydraulics/Hydrology**. This is in addition to our existing prequalification disciplines that include **Hazardous Waste, Water Quality and Wetlands**.

For nearly 25 years, CEI has provided civil engineering and environmental consulting services to state agencies and municipal governments throughout the Commonwealth. With offices located in Marlborough, MA; New Britain, CT and Merrimack, NH, CEI's services include street/roadway design, stormwater/drainage management, water supply engineering, wastewater engineering and hazardous waste remediation as well as bid, construction and inspectional services.

Registered with the MA Supplier Diversity Office (SDO – previously SOMWBA) as a Woman-owned Business Enterprise (WBE) and Disadvantaged Business Enterprise (DBE), CEI has provided a variety of MassDOT support services. Our staff of Professional Engineers (civil, transportation, environmental, geotechnical) can provide expertise in addressing the following specialty areas:

- Roadway & Highway Drainage Design/Stormwater BMPs
- Utility Relocation & Soundwall Design
- Hazardous Waste Assessment & Remediation Services
- Microstation Services (including In-Roads)
- Construction Administration & Inspection Services

If you are interested in learning more about CEI's capabilities and how we can assist you on a current proposal effort or your next project, please contact CEI Principal Engineer, Matthew Lundsted, P.E. at 800-725-2550 or via email at [mlundsted@ceiengineers.com](mailto:mlundsted@ceiengineers.com). We can give you a quick turnaround and impressive qualifications for your proposal needs while proving to be a valuable and cost-effective asset to your next project team.
