

CEI Supports Those Who Serve For Us

During the month of May, Comprehensive Environmental Inc. (CEI) teamed with Operation Troop Support to collect care package items for donation to deployed men and women across the world serving in the U.S. Military. With offices in Massachusetts, New Hampshire and Connecticut, CEI staff throughout the Northeast contributed a myriad of needed items including socks, sunscreen and personal care items. Operation Troop Support (www.operationtroopsupport.org), a nonprofit group that serves deployed men and women in uniform from across the country, will pack up the items and ensure the care packages reach their final destination to U.S. troops overseas.

CEI Proudly Supports the Men and Women Serving in our U.S. Armed Forces!
