REMINDER: Are Your Parks & Playgrounds Ready for Summer?

Summer is here - are your parks and playgrounds safe? Have your facilities been inspected by a fully-insured Certified Playground Safety Inspector (CPSI)? It's always a good idea to have an expert inspect your playground area and equipment, as well as any water features or swimming areas. Hiring an outside expert and following their recommendations can give you the peace of mind that you have covered safety issues to the greatest extent possible, while also fulfilling your insurance requirements and reducing legal liabilities.

CEI is pleased to offer CPSI inspection services to assist in providing safe facilities for summer fun. We are also available to help with your new design or to fix existing problem areas and helping you meet Federal guidelines and standards.

Our Parks and Recreation Services include:

- **Water Quality Assessment**
- **Trails (pedestrian, bicycle, fitness)**
- **Dog Parks**
- **Vehicle Parking Areas**
- **Certified Playground Safety Inspection**
- **Beach Restoration**
- **Waterway Access**
- **Lake & Pond Management**
- **Site Remediation Services**
- **Stormwater Management**
- **ADA Compliance**

For more information or to discuss a project, please contact Eileen Pannetier at 1.800.725.2550 x301 or epannetier@ceiengineers.com, or Jessica Cajigas, CPSI, at 508-281-5160 x333 or jcajigas@ceiengineers.com.
