

GETTING TO KNOW CEI – BENJAMIN LUNDSTED

BEN LUNDSTED, P.E.

BEN IS A PRINCIPAL ENGINEER AT CEI WITH OVER 15 YEARS OF EXPERIENCE

Ben is a Registered Professional Engineer and Principal at CEI with over 15 years of engineering experience. He has worked on a variety of civil, environmental and geotechnical engineering projects ranging from stormwater Best Management Practices (BMP) design to water supply to dam inspection and watershed management. He is experienced in cost estimation, construction administration, contractor coordination and site inspection.

Ben has a Bachelor's Degree in Civil Engineering from the University of New Hampshire. He enjoys playing ice hockey, camping, hiking and listening to music. He spends most of his time landscaping at his house and enjoying time with his young son.

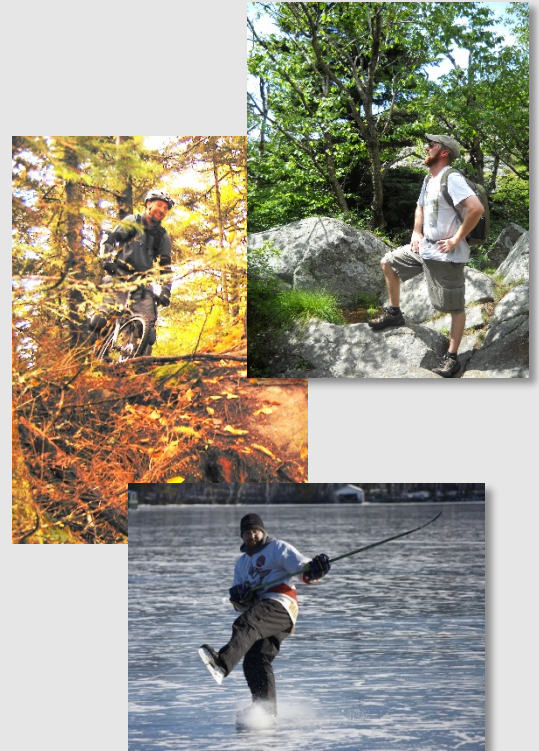

Project Manager for MassDOT roadway rehabilitation that includes stormwater treatment and accidental spill protection for water supply project.

Project Engineer for multiple Supplemental Environmental Protection Projects (SEPP) working with the City of Manchester, NH Environmental Protection Division.

Geotechnical services for projects involving culvert foundations, building foundation design and dam rehabilitation projects.
