

CEI Honored as One of New Hampshire's Best Companies to Work For

CEI is proud to announce our selection as one of New Hampshire's Best Companies to Work For by Business NH Magazine. Nominated earlier in the year, CEI participated in a rigorous multi-step vetting process that included an extensive Q&A, comprehensive employee survey, site visit and facility tour, president interview and employee focus group. Selected as one of NH's top 5 small businesses to work for, the awards committee highlighted CEI's employee ownership; flexible, family-friendly schedule; employee events and benefits. In addition to ownership potential, flexibility and competitive benefits, CEI has a distinctive philosophy that draws and retains employees. Quoted by Business NH Magazine, CEI President and CEO Eileen Pannetier explained: *"It's the quality of work, the freedom they (CEI employees) have – they know they are a key part of the company. They know they are important here and know their work is unique because they are allowed to do a better job. It's not about grinding out the cheapest, fastest work... It's not about making a buck, but leaving something behind that you're proud of. If people come away after a hard day of work feeling like they accomplished something, that's the number one goal – that their work is meaningful."*

CEI has been providing civil engineering and environmental consulting services to municipalities, state and federal agencies and private industry throughout New England for over 23 years. CEI's New Hampshire office is located in Merrimack, NH. For more information on CEI please contact Ms. Stephanie Hanson at 603.424.8444 or shanson@ceiengineers.com.
