
NH Aviation Museum Receives Donation from CEI

Comprehensive Environmental Inc. (CEI) recently donated an exhibit/display system to the New Hampshire Aviation Museum in Londonderry, N.H.

"We are excited to receive this gift." remarked Jessica Pappathan, the museums Executive Director.

This in-kind donation of a free standing display and exhibit system will allow the museum to showcase different objects and images in both the museum and as part of a mobile educational component.

Celebrating Flight!

Established in 1994, the museum's mission is to preserve New Hampshire aviation history through dynamic and hands-on exhibits and programs. The museum offers a unique cultural experience to inspire aviation enthusiasm in people of all ages.

This summer the New Hampshire Aviation Museum will be hosting a fundraiser. "Celebrating Flight: A Juried Art Competition at the Aviation Museum of NH" in which the donated display may be used. For more information on the museum visit www.nhahs.org.

Over the past 25 years CEI, both the corporation and staff individually have volunteered countless hours to public and nonprofit organization, providing our own area of expertise to projects and groups we are committed to. Whether it is extra hours to assist a municipal department or group in the form of industry education, donating in kind to different nonprofits, organizing a collections drive for active military men and women, volunteering to teach students about what we do and preserving the natural environment or the late hours many of our staff commit to volunteer boards and commissions in their own community, CEI is proud of its community efforts.
