CEI Staff Keep Water in Mind

Since 1987 our engineers and scientists at Comprehensive Environmental Inc. (CEI) have worked to protect and restore our water environment. With hundreds of water related projects including watershed management, water supply protection and groundwater remediation, CEI has committed to investing in the future of our water resources.

We are proud of our team's accomplishments and those of the Waterkeeper Alliance, a global non-profit focused on the preservation and protection of clean water. With only 2% of expenses accounting for administrative costs, the Waterkeeper Alliance and its 292 member and affiliate organizations are one of the fastest growing nonprofits solely focused on clean water worldwide today. In 2016, 2.5 million square miles of watershed were protected by Waterkeeper organizations according to www.waterkeeper.org.

As a show of support to this mission, CEI staff recently made a generous donation to the Waterkeeper Alliance. Please visit www.waterkeeper.org for more information on the Waterkeeper mission and to www.ceiengineers.com for more information on ours.

CEI is an award winning civil and environmental engineering firm incorporated in 1987 serving the U.S Northeast.
