CEI Introduces EagleEye Aerobotics™ Water Supply Capabilities at NEWWA

The New England Water Works Association (NEWWA) Annual Spring Conference and Exhibition was held on April 5-6th 2017 in Worcester, MA at the DCU Center. Comprehensive Environmental Inc. (CEI) and its small Unmanned Aerial Systems (sUAS) wholly owned subsidiary EagleEye Aerobotics™ were featured at this premier drinking water event.

EagleEye
A E R O B O T I C S™

CEI President, Eileen Pannetier, presented *The Use of Unmanned Aerial Vehicles (Drones) in Water Supply Protection*. Drone use to protect water supply is a viable new technology. This presentation demonstrated the practical uses of drone footage in infrastructure inspecting, as well as observations of watershed activities and disturbances, including the basic rules of where they can be used and under what circumstances along with costs and timing.

EagleEye Aerobotics™ combines the use of customized real time imagery with CEI's engineering and scientific expertise to provide superior access, timely site reviews and increased data precision. CEI's EagleEye Aerobotics™ in-house pilots are certified by the Federal Aviation Administration (FAA) and fully insured for sUAS flights. Our sUAS pilots are trained engineers and scientists with the knowledge to help your projects succeed.

For more information on EagleEye Aerobotics™ and available drone services please contact Eileen Pannetier at 800.725.2550 or epannetier@ceiengineers.com
