CEI Encourages Melrose Children To Help Keep Stormwater Clean

On May 31, 2012 the City of Melrose held their 10th Annual Public Works Day hosted by Mayor Dolan. Over 900 children from surrounding schools attended this event where the City provided an opportunity for them to learn about the public works department services. The event included tours, demonstrations, games, rides and educational outreach, all geared for children.

Comprehensive Environmental, Inc. (CEI) was honored to be invited by the City of Melrose to participate in this annual event. The CEI tent included games, educational materials and information for teachers on stormwater management. CEI staff lead children in a stormwater activity that included each child making a pledge to help keep stormwater clean. They colored pictures representing their pledge and posted it on a map of Melrose to demonstrate their commitment to help keep Melrose clean.

CEI provides comprehensive engineering and environmental consulting services including stormwater management.

For more information about CEI's services please visit us at www.ceiengineers.com or call 800.725.2550.
